Consultation and information counter

The Consultation and information counter provides residents of Aichi Prefecture with various information and brochures on international exchange.

It also provides consultations on labor, tax, medical and educational issues in different languages, including Portuguese, Spanish, English and Chinese. Additionally, it offers individual support by multicultural social workers, and simple interpretation on matters of daily life.*

(*) The counter does not provide interpretation services for any commercial purpose. An individual requiring the service can either come to or telephone the counter to receive interpretation service. The telephone charge must be borne by the caller.
